For many years the Piano Forte has held unquestioned monoroly; but a growing taste for those orchestral effects in playing which the Pianz cann t ren-der, has terned attention to the Organ. Cheapness, portableness, and conven-ience of manipulation are also advantages in the American Organs, as made by Messrs. S. D. & H. W. Smith, of Boston, which eminently recommend 140tf them for home, school, and chap. I use. A day or two since we visited the new extensive manufactory of the above-named instruments, on Boston Neck, and were surprised at the vast amount of labor in operation, and the completeness of the appliances in use, from the heavy machinery which cuts the stock, to the delicate apparatus which fa hions the key work and action. Messrs, S. D. & H. W. Smith are regarded as the best reed Organ manufacturers in the world, and aithough able to turn out one hundred instruments a week, they have found difficulty in filling orders, which come from all parts of the country. None who hear these popular instruments, with their round, sonorious, sympathetic and expres ive tones, are surprised t the favor with which they are regarded by lead ng music ans.

THE AMERICAN COOKING STOVE .-- The only real base burner. It is a well known fact that in a cooking stove with an clongated fire-box the fire will die out at each end, and a large quantity of dead coal will accumulate at these points. To prevent this in the American and to aid and make a uniform combustion through all parts of the fire-box, air is admitted into a hollow chamber at the top of the stove above the fire, and carried through this hollow heated chamber down to be present. Those who witnessed the to State printing, and in addition to and near the bottom of the fire-box at each St. Albans raid" will be pleased with in amen ment of No. 61, of the public end, and then admitted directly into an accurate description of the New Or- acts of 1867; to selec. committee of one the burning mass of coal. Wm. Carny was fatally shot during a dispute last right. The assassin was trrested. They were both negroes. Sharp's glast-staining factory, on

I wenty-Second Street, was destroyed by ire last night; loss \$200,000. The steamers Holsatia, from Bremen, and City of Boston, from Liverpool,

have arrived. The weather is pleasant.

BOSTON, 27th.

The only subject of solicitude in recard to the great torch-light procession o . Wednesday night is the weather. If t prove fine, Boston will see such a briltiant display as it has never s e 1, and will be as full of people from abroad as it has been for many years.

Reports from all quarters show more nterest in the occasion than the most sanguine could have expected.

Thousands of men who, a week at o, d not thought of being present, have organized for the parade.

The demand for fire-works for the oceasion is much greater than the supply. The great mass meeting in the afternoon will be addressed by Gov. Harriman, Gen. Kilpatrick, and others.
